## C2 Aerobic Waste Digester

*Our digester technology has the cutting edge in turning suitable organic waste into a high energy biomass fuel in less than 24 hours*

## Specification:

TYPE:	Accelerated Aerobic Bio-digester
OPERATION:	Continuous
PROCESS:	Thermophilic (70°C Nominal)
DIMENSIONS:	Height 1000mm – Width 800mm – Length 1700mm
MAX INPUT CAPACITY:	2000 Litres /week
NOMINAL OUTPUT RATE:	Approx. 15-30% of input rate
POWER SUPPLY:	3 ~ 415V 16A
MOTOR:	1.1kw with Inverter Controller
OPTIONS:	Remote Monitoring & Control (optional), Loader Unit, Bin Lifter, Standalone Shredder, Integrated Ozone Unit
